- Release of information regarding treatment to third party payers or others for the purpose of receiving payment for services.
- In certain situations, the delivery of care may include telemedicine:
 - My health care provider has explained how the video conferencing technology will be used to affect consultation. I understand that this consultation will not be the same as a direct patient/health care provider visit since I will not be in the same room as my health care provider.

I understand that my health care provider or I can discontinue the telemedicine consultation if it is felt that the videoconferencing connections are not adequate for the situation.
 - I understand others may also be present during the consultation other than my health care provider and consulting health care provider to operate the video equipment. I further understand that I will be informed of their presence in the consultation and thus will have the right to request the following: (1) omit specific details of my medical history/physical examination that are personally sensitive to me; (2) ask non-medical personnel to leave the telemedicine examination room; and/or (3) terminate the consultation at any time.
- By signing this consent form, I confirm that I am the custodial parent and/or legal guardian of the above-named student, and the insurance information is current and correct.
